More Effective Project Leadership & Portfolio Management

Become a more effective project leader and portfolio manager.

The most effective project management combines excellent technical skills with superior leadership capabilities.

Project success often depends on the project manager being able to **apply a wide spectrum of leadership skills, from communicating and inspiring effectively to developing teams, managing conflict and influencing stakeholders.** This course will help you dramatically improve your competencies to – among others – **motivate project team members, prioritize projects, engage with key stakeholders, resolve team conflict and act as a change agent to drive new business value.**

Top Take-Aways

1. Understanding and working with the **organizational context** as a project leader
2. Enhancing your **project leadership self-knowledge, capabilities and skills**
3. **Building high performance teams** to achieve project success
4. Applying **effective communications** in project management
5. **Managing conflict** in project teams
6. Understanding the importance of **ethical leadership**
7. Analyzing and **engaging** with stakeholders
8. **Building and managing the project portfolio** to optimize investments
9. **Leading change** in project management

Who Should Attend

This program is recommended for project professionals with a minimum of three years of PM experience seeking to enhance their PM technical skills with key approaches, tools and techniques focused on the people aspects of projects. The program is ideal for:

- Program and project managers and PMO staff
- Business analysts
- Internal and external management/ business consultants
- Project sponsors
- Directors, managers, department heads and supervisors wishing to expand their understanding of project leadership
- Project clients

Additional Course Materials: As part of the program, you will receive an excerpt from the book used to structure the course: *Leadership in Project Management: Leading People and Projects to Success* to complement in-class material and discussion.
